Dear Dennis

Our business has recently invested in the Konica Minolta Bizhub B282 Digital System Copier to our West Perth office. We would like to take the time to thank you and your business & services. We sincerely appreciate the recommendation of this machine. It has made our work load so much less stressful and more organised. The photocopier is amazing!!

Thank you for all your help and services, your company employee's were very kind and helpful. We look forward to a positive future together.

Kind regards

Desborough Accountants
